*I will look at your **current** name (not your birth name) using the ancient **Chaldean** System.*

The number your current name adds up to is vital in helping, or hindering, you in your quest to fulfill your goals. Your current name **ACTIVATES** your whole Personal Numerology Blueprint. Making sure it resonates to a fortunate number is vitally important.

In other words, having a really fortunate current name number will aid you immensely in activating your Destiny and Life Purpose to the greatest extent possible.

It is very important to have only **ONE** fortunate current name, so that the number can activate **FULLY** and not compete with other numbers - or additional versions of your name.

If you use more than one name you will be diluting both numbers ~ even if both names are fortunate. This is why it's important to have just one good current name that can fully activate **ONE** fortunate number in your life.

For example, if you eliminate your middle initial when you introduce yourself, but use the middle initial when you sign your credit card and checks—you are using **TWO** versions of your current name and that will activate **TWO** separate numbers.

Again, this is not recommended even if both numbers are fortunate!

Challenging Names will slow down your path to success and happiness, create unnecessary obstacles and even prevent you from reaching your goals.

Fortunate Names do the opposite – they create opportunities, bring a sense of effortless into your everyday life, synchronize events in your favor and attract abundance. They also help you discern which people and situations are for your Highest Good.

Now let's take a look at your name...

***Linda Steele resonates to 12/3.***

**You have to be alert with the number 12. This number is complicated. On the one hand it represents acquiring great knowledge and strength, which may lead to making a fortune. On the other hand, there's an equally strong tendency to be a victim. For you to volunteer to suffer for a purpose. So you always have to be suspicious of anyone who dangles out promises of high positions. You must constantly analyze people's motives. And you should watch out for reversals and trials in your life, which can come as a result of selfishness.**

**Beware of false flattery from others who use it to gain their own goals. Be suspicious of anyone who dangles out promises of high positions. In every instance, analyze their motives. Sometimes they may be dishonest.**

**You may sacrifice your personal goals in order to help someone else achieve their ambitions. 12 is referred to as the "Victim Number." If you look at the 12 it is made up of the 1, representing one person, teacher, or your life – and the 2, which looks like someone who is kneeling, like a student. This means you may feel emotional stress and forgetfulness of previously learned lessons.**

**12 represents education on every level, from physical to spiritual. Thus you may have to sacrifice in order to achieve knowledge and wisdom. Always look within for the solution.**

**When you pay attention to your spiritual and intuitive education you will ultimately be successful.**

***I would not recommend this number for a name. So, I have created two alternative spellings for you. Both keep the pronunciation in tact:***

***Linda Steelle resonates to 42/6.***

**24/6 is a most fortunate vibration. This name number enables you to receive help from people in high positions. Your financial success is greatly enhanced with this number, as is your happiness in love. It makes you very attractive and gives you a great deal of magnetism. Ironically this number is so fortunate, and creates such an effortless flow in your life, the one thing to guard against is arrogance and self-indulgence.**

***Linda Steele resonates to 15/6.***

**15/6 is the number of deep esoteric significance. It is symbolized by the Spiritual Magician and is a vibration of alchemy. This number is extremely lucky. It carries a feeling of enchantment. 15 is associated with people who can express themselves eloquently, as well as music, drama and art. It gives you compelling charisma and a strong magnetism.**

**This vibration is especially good for obtaining money, favors and gifts from others – it appeals to the altruistic nature in other people. With this number you are blessed with the gift to bring happiness to others - you shine light into the darkness, assuming you don't use this magical vibration for selfish reasons.**

***Dear Linda,***

***I highly recommend you either use the name Linda Steelle or Llinda Steele, if at all possible. Either of these names will truly help you reach your goals and activate your blueprint to the fullest extent possible.***

I know a name change is a big step to take. However the results will manifest in magical ways for you, sometimes instantly.

Place it on all legal documents, banking, bills credit cards, social media and correspondence so that, when you sign and look at your name you're activating that number.

It is very important not to have more than one name, since using two or more versions of your name dilutes each vibration, even if both versions of the name are fortunate name numbers. One fortunate name will activate the number fully.

Well I hope that helps and that you are able to choose the current name that best matches what you want to accomplish in life because your current name will activate your other birth numbers.

I wish you much success.

Congratulations!
