Dear Cherie,

It's Linda, your Astro-Numerologist of [LindaRoisum.com](http://LindaRoisum.com). I am so excited to provide you with your AstroNumerology Natal Chart.

The very moment you were born, your sacred numbers code was set in motion that will carry you through your entire life.

At that magnificent space in time, you were also given a one of a kind, abundance formula. Your souls custom map to pure expression, bliss, fulfillment and freedom. Your compass for navigating life on Earth.....  
Your Spiritual Numbers Code.

Everything can be reduced to numbers, including your name, street address, birthday and your business name. Numbers play a much larger role in shaping your destiny and your ability to create abundance than you can imagine.

**The bottom line is...**

Your numbers are here to support you, to help you release your limited beliefs and allow you to consciously live a life of splendor and magnificence! If you are interested in knowing more about what your numbers mean and where the planets were at the time of your birth, I offer a variety of reports and intuitive readings. You can find out more about these on my [website](#).

I look forward to 'seeing' and getting to know you on [Facebook](#).

In love and light,

**Linda Roisum**

Current Personal Year

= **19/10/1**

Until your next birthday in August, you are in a 19/10/1 Personal Year.

Keywords: New beginnings, Action, Change, New goals.

**19** represents the 'Prince of Heaven' in ancient Chaldean numerology. This cycle can be experienced as a lucky period of new beginnings. It can be a prosperous time as well. You can overcome obstacles easily now. You may also receive rewards for your past creative projects.

**19** cycles promise prosperity and liberation from your past. You have more energy, drive and ambition now. It is a time for independence, a time to take a chance – you have forces helping you this cycle. You will grow as a result of your intrepid actions.

**19** further reduces to the number 1. **1** represents originality, independence and creativity. If you attended to unfinished business on every level during the last nine years, you will be able to see your future clearly.

Be open to new plans and approach your ideas with flexibility and creativity. **1** is a number of innovation and represents a new approach to life. Coupled with the **9** you are dealing with both release and new beginnings in your **19/10/1** Personal Year

The **9** and **1** combination inspires your inner confidence – try not to take things personally and take responsibility for your own emotional issues instead of looking to others to justify your challenges. Also exercise to release any nervousness you may feel. This number combination can bring on feelings of impatience and inadequacy. Transmute those feelings by beginning a new project or venture. Action is always a wonderful remedy – especially in a **1** cycle! Action is the key to the number **1** and symbolizes the male principle.

Guard against: stubborn resistance to change, not focusing on and planning your future.
